VISION LEEDS TEST OBJECTS' NEWSLETTER

FOCUS ON... **INFLATION**

We are all experiencing cost increases due to inflation in the economy and the effects of COVID and the war in Ukraine.

Leeds Test Objects has seen some cost increases, but we have resisted a mid-year price list increase, and we expect to make our new year price increases in line with inflation or lower.

FOCUS ON... **NEW COLLEAGUES**

We've added new positions to our team here at Leeds Test Objects this year including:

- Tissue Equivalent Material Scientist
- Sales Manager (UK)
- Programmer
- Production Technician

These positions reflect a growth in our activities and ambitions.

DID YOU KNOW... **BESPOKE PHANTOMS**

Each year Leeds Test Objects designs and manufactures bespoke phantoms for a multitude of customers; from one-off research projects to vendor specific phantoms for packaging with machines sales.

If your customer can't find what they want, we can probably make it for them. So, please don't hesitate to ask for our help.

Which Phantoms Do We Have Software For? many of our phantoms have automatic scoring software, but which phantoms, and which are provided at no extra cost?

Analysers (free with phantom)

CBCT-161-MINI

TOMTF

CTAEC

MOTUS

QUATTRO

AutoPIA (extra cost)

FAQs

Don't forget to access the distributor log-in area on our website www.leadstestobjects.com . You can access presentation slides from the distributor training meetings.

Contact us at info@leadstestobjects.com if you need your log-in password details.

LOG-IN DISTRIBUTOR AREA

PRODUCT TRAINING...
MEETING

Unfortunately we feel that despite the improved position on COVID-19 our distributor meeting will not go ahead again this year. Hopefully 2023 will be possible.

We hope instead to welcome you to our exhibition booth at RSNA (South Hall, booth 2602) to catch up with our latest product developments and to discuss any opportunities you have.

Welcome to our new distributor for Egypt, MAGGIE MEDICAL COMPANY. Good luck with your efforts!

UPDATE ON... **PARTNERS**

Leeds Test Objects will be exhibiting in our own right at RSNA, Chicago for the first time in November this year.

We are excited about the opportunity to meet new customers and catch up with partners who we don't often get to see.

RSNA - Chicago, USA
27th November - 1st December 2022
South Hall, Booth 2602

Do you exhibit at a national tradeshow?
Let us know when and where so that we can support you!

FUTURE **TRADESHOWS**

Leeds Test Objects returned to ECR, Vienna to exhibit in person for the first time since the COVID pandemic began.

It was great to meet with our distributors, partners and customers to discuss our latest phantoms and new opportunities.

ECR - Vienna, Austria
July 2022

Take a look at our new sets on our website.

SFS-2

Developed for flat panel fluoroscopy and digital subtraction systems, this comprehensive set includes numerous phantoms including MOTUS for introducing motion to your QA, and our portable TO.MTF edge with free scoring software.

DR-2

Intended for flat panel DR systems, this is an evolution of our CRDDR set. DR-2 comprises several phantoms and includes a new extra-low-contrast contrast detail phantom and our TO.MTF with free software.
