VISION LEEDS TEST OBJECTS' NEWSLETTER

NEW 2022... PRICE LIST

In January we released our price lists for 2022, if you have not received your copy please contact us.

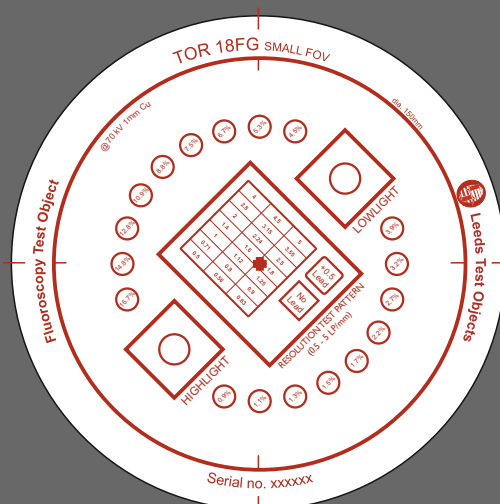

Despite the current cost challenges in the world we are pleased to have been able to limit our prices to within or below inflation, with one exception where the material cost rise was significant.

We have continued working our socially distanced rota system as we have done since early 2020. This model works very well and we will maintain it until the end of the pandemic.

Whilst Omicron variant numbers are very high, the vaccination booster programmes which are underway in many countries have resulted in good protection and milder disease.

Let us hope that Omicron is the last major peak of this pandemic.

UPDATE ON... COVID-19

DID YOU KNOW... MINI C-ARM

The Field of View on some mini c-arms is smaller than the detail area of our TOR18FG so we supply a small FOV version of this phantom where the details have been condensed into a smaller area.

Which Phantom Do I Need For Different Types of Dental X-ray?

Our wide range of dental phantom can mean customers are confused about which phantom to choose. Here's our guide to choosing.

Intra-oral ONLY

TOR DEN Digital
DENTEST
UniDENT

Intra-oral and Panoramic (OPG)

TOR DEN Digital + OPG kit
TOR DEN Plus

Panoramic (OPG) ONLY

TO PAN

Cone-beam CT (CBCT)

SEDEXCTIQ
CBCT-161
CBCT-161-MINI

FREQUENTLY ASKED QUESTIONS

FAQs

Don't forget to access the distributor log-in area on our website www.leadstestobjects.com. You can access presentation slides from the distributor training meetings.

Contact us at info@leadstestobjects.com if you need your log-in password details.

PRODUCT TRAINING...

MEETING

Unfortunately we feel that despite the improved position on COVID-19 it is likely that our distributor meeting will be delayed again this year. Hopefully 2023 will be possible.

We hope instead to welcome you to our exhibition booths at ECR and RSNA to catch up with our latest product developments and to discuss any opportunities you have.

Thank you to all of our distributors for continuing to work hard to represent us throughout the world during the difficult circumstances of the COVID-19 pandemic.

We've all had to change the way we work, but despite the challenges we have experienced our best ever year!

UPDATE ON... **PARTNERS**

The exhibition season for 2022 looks set to be somewhat less affected by Covid-19, we hope to see our customers and partners at the following exhibitions.

The following meetings are scheduled in the forthcoming 6 months.

UKIO - Liverpool, UK
4th - 6th July 2022

ECR - Vienna, Austria
13th - 17th July 2022

RSNA - Chicago, USA
27th November - 1st December 2022

Do you exhibit at a national tradeshow?
Let us know when and where so that we can support you!

FUTURE **TRADESHOWS**

Showing on the RADCAL booth at RSNA 2021 was our new SFS-2 set which can be used for flat panel fluoroscopy systems and digital subtraction systems.

RSNA - Chicago, USA
28th November to 2nd December 2021
